► Instructions For Submission

Please compile the full proposal according to the outlined structure and submit it to **irbmanager@ipakirb.com** by [Date], [time]. Ensure all sections are completed in full and all necessary signatures are obtained before submission.

To ensure the IRB IPAK-EDU proposal forms are both comprehensive and user-friendly, here are the suggested updates along with their placement within the existing form structure:

Intake Form Updates

****Placement**:** *After Tips on Clarity and Accessibility*

Review the entire document to ensure that the language is clear and accessible to a mixed population of readers in the IRB study section.

Consider adding a glossary for any technical terms or acronyms.

Layout and Design: Assess the layout for user-friendliness. This may include adding more space for responses, using bullet points for clarity, and providing SUMMARIES for each section.

By implementing these tactics, your IRB IPAK-EDU proposal will be better equipped to relay all necessary information for a thorough review, enhancing the efficiency of the proposal process and supporting the ethical conduct of research projects.

Part C. Informed Consent Form Template

I. Title of Study

[Title]

You are being invited to participate in a research study titled “[Title].” This form provides you with information about the study. Please read it carefully and take your time to make an informed decision. Participation in this study is voluntary.

II. Purpose of the Study

[Provide a brief description of the study’s purpose, including what the study is seeking to understand or accomplish.]

III. Procedures

If you agree to participate, you will be asked to do the following:

[Detail the specific procedures involved in the study, including any tasks or activities the participant will perform, the duration of their involvement, and the location where the study will take place.]

IV. Potential Risks and Discomforts

[Describe any potential risks, discomforts, or inconveniences to the participant, including any physical, psychological, or social risks.]

V. Potential Benefits

[Explain any benefits to the participant or to others that may reasonably be expected from the research. If there are no direct benefits to participants, state this clearly.]

VI. Confidentiality

Your participation in this study will remain confidential. [Describe how personal information and research data will be collected, stored, and protected. Mention any limits to confidentiality.]

VII. Compensation

[If participants will receive compensation, describe the type, amount, and conditions of compensation. If there is no compensation, state this clearly.]

VIII. Participation and Withdrawal

Your participation in this study is entirely voluntary. You can withdraw at any time without penalty or loss of benefits to which you are otherwise entitled. [Explain how participants can withdraw and any implications for data already collected.]

IX. Questions

If you have any questions about the study, your rights as a participant, or any other concerns, please contact the Principal Investigator at [Phone] or [E-mail].

For questions about your rights as a research participant, contact [Insert Contact Information for Institutional Review Board or Ethics Committee].

X. Consent

I have read this consent form (or it has been read to me) and I fully understand the contents of this document and voluntarily consent to participate in this study. All of my questions have been answered to my satisfaction, and I agree to all the terms described.

I understand that by signing this form, I am not waiving any legal rights I may have as a participant in this study.
